

**The ultimate photography course
by Henk van Kooten**
discover, develop & demonstrate your skills!

The course developed for student- and professional photographers

A course to learn everything that you need... An idea that I had since long time.

Implementation was difficult, but here's my plan finally realized!

Not only techniques, but also the other aspects:

- creative development
- bodylanguage
- communication
- marketing / sales / branding

Not learning to be like me, but learning from the talents and qualities of yourself.

This should make, in my opinion, the most of the student-/ professional photographers abilities.

Therefore an intensive preparation for registration and the critical selection procedure that follows.

Of a turbo-boost in a 1 week course to a more complete 3 months training with much more depth search.

Or even the possibility to do a 1 year course, with a qualification according to international standards.

It can be certified by a number of internationally recognized photographers, like Yervant Zanzian, Vincent O'Byrne, Eolo Perfido and more.

Many practical tasks through which you build a portfolio which can be of enormous value for your PR and business development.

Besides all the extra options we can offer:

f.e. courses of a guest lecturer.

To ensure the quality of this training we have a maximum of 3 students per year.

Get the most out of your talent, for the rest of your life!

Finally, the 1 and 2 day courses. Other design, though the same objective.

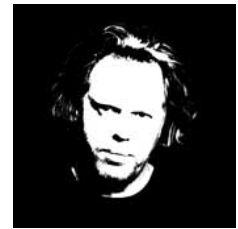

A Masterclass from 3 to 5 persons. The participant is the one who photographs also.

Working with models and leaving with a print as an example.

In the 2-day course, even a small portfolio.

The Masterclass is held preferably in the studio of Henk van Kooten, but can also be held in your own studio.
